Jupyter_Notebook

March 9, 2023

Add your code below following the instructions given in the course

1 My Jupyter Notebook on IBM Watson Studio

Name - Nandini Agrawal I aspire to be a Data Analyst with a specialization in Business and Economics

I am interested in data science because I enjoy working with data, equations and numbers. The challenge they bring with them interests me.

1.0.1 The following code is for calculating the sum of two numbers

```python
[ ]: num1 = 5
     num2 = 4
     sum = num1 + num2
     print(sum)
```

Big data is at the foundation of all the megatrends that are happening today, from social to mobile to cloud to gaming. *List of Data Science Languages:* * Python * R * SQL * Scala * C++ * Java * JavaScript * PHP * Go * Ruby * Visual Basic
